DAIRYING IN WEST BENGAL

A STATISTICAL PROFILE 2017

District Map of West Bengal

FOREWORD

In this publication "Dairying in West Bengal - A Statistical Profile 2017", the major highlights are: trend in human demographics, livestock population and production; inputs for enhancement of productivity such as breeding, health and nutrition. This publication includes statistical tables and thematic maps on selected parameters along with time series data of districts wherever available.

The objective of this publication is to provide a detailed presentation of various parameters, underlying factors and their inter-linkages so as to enable effective planning and implementation of various development interventions. We hope that a wide range of readers, students, researchers, veterinarians, planners, scientists, administrators, policy makers and professionals in government and non-governmental organisations, will find this publication useful. This publication aims at balancing the most comprehensive information with the most relevant.

We sincerely thank government and non-government agencies for providing information. While extreme care has been taken in putting together data in a systematic and comprehensible manner, some errors cannot be ruled out.

This publication "Dairying in West Bengal - A Statistical Profile 2017" is amongst a series of similar publications for different states being brought out by National Dairy Development Board (NDDB).

INDEX

I. GENERAL STATISTICS

I.1. West Bengal at a Glance

I.1.1: General Statistics: West Bengal vs. India	02
I.1.2: Formation of Districts in West Bengal	04

I.2. Social Statistics: Human Population

I.2.1: Human Population by Residence and Sex - 2001	05
I.2.2: Human Population by Residence and Sex - 2011	07
I.2.3: Rural Households, Electricity and Tap Water Supply - 2001 and 2011	09
I.2.4: District-wise SC and ST Population - 2001 and 2011	11

I.3. State Economy

I.3.1: Net State Domestic Product (NSDP) and Per Capita Income	13
I.3.2: Value of Output: Agriculture and Livestock	15
I.3.3: Approved Project Cost for Dairying under Rashtriya Krishi Vikas Yojana (RKVY) in West Bengal	16
I.3.4: Approved Project Cost for Animal Husbandry under Rashtriya Krishi Vikas Yojana (RKVY) in West Bengal	17

II. LIVESTOCK CENSUS

II.1. Animal Population

II.1.1: Summary of Livestock Census (1997 to 2012) - West Bengal.....	20
II.1.2: District-wise Total Bovine Population	21
II.1.3: District-wise Female Population	22
II.1.4: District-wise Breedable Population	23
II.1.5: District-wise In-milk Population	25
II.1.6: District-wise Milch Population	26
II.1.7: District-wise Male Population	27

II.2. Sex Ratio in Dairy Animals

II.2.1: District-wise Male-Female Ratio	28
---	----

II.3. Wet-Dry Ratio of Dairy Animals

II.3.1: District-wise Wet-Dry Ratio	29
---	----

II.4. Livestock Density

II.4.1: District-wise Density of Total Livestock and Bovine	30
---	----

II.5. Cattle and Buffalo Breeds

II.5.1: Cattle and Buffalo Breeds of West Bengal - 2012	31
II.5.2: District and Breed-wise Population of Crossbred Cattle in West Bengal - 2012	33
II.5.3: District and Breed-wise Population of Gir Cattle in West Bengal - 2012	34
II.5.4: District and Breed-wise Population of Sahiwal Cattle in West Bengal - 2012	35
II.5.5: District and Breed-wise Population of Siri Cattle in West Bengal - 2012	36
II.5.6: District and Breed-wise Population of Murrah Buffalo in West Bengal - 2012	37

III. CATTLE AND BUFFALO BREEDS

III.1. Distribution of Native Breeds of West Bengal

III.1.1: Distribution of Cattle Breeds in West Bengal	40
---	----

III.2. Performance of Major Breeds

III.2.1: Performance of Native Cattle Breed	46
---	----

IV. MILK PRODUCTION

IV.1. Production Performance: Milk Production

IV.1.1: Year-wise In-milk Bovine Population, Milk Yield and Milk Production	48
IV.1.2: Year and District-wise Bovine Milk Production	49
IV.1.3: Year and District-wise Indigenous Cattle Milk Production	51
IV.1.4: Year and District-wise Crossbred Cattle Milk Production	53
IV.1.5: Year and District-wise Buffalo Milk Production	55
IV.1.6: Year and District-wise Total Milk Production Density	61

IV.2. Production Performance: Milk Yield

IV.2.1: Year and District-wise Bovine Milk Yield	63
IV.2.2: Year and District-wise Indigenous Cattle Milk Yield	65

IV.2.3:	Year and District-wise Crossbred Cattle Milk Yield	67
IV.2.4:	Year and District-wise Buffalo Milk Yield	69
IV.3.	Production Performance: Animal Population	
IV.3.1:	Year and District-wise In-milk Bovine Population	71
IV.3.2:	Year and District-wise In-milk Indigenous Cattle Population.....	73
IV.3.3:	Year and District-wise In-milk Crossbred Cattle Population	75
IV.3.4:	Year and District-wise In-milk Buffalo Population	77
IV.4.	Production Performance: Milk Availability	
IV.4.1:	Year and District-wise Per Capita Milk Availability.....	79
IV.5.	Production Performance: Milk Utilisation	
IV.5.1:	Milk Utilisation Pattern in Households (2009-10 to 2015-16)	81
V.	VETERINARY INFRASTRUCTURE AND SERVICE DELIVERY SYSTEM	
V.1.	Veterinary Infrastructure	
V.1.1:	Year and District-wise Veterinary Institutes	84
V.1.2:	Year-wise AI Centres.....	85
V.2.	Service Delivery System - Artificial Insemination	
V.2.1:	District-wise AI Centres - Government Agencies	86
V.2.2:	District-wise AI Performed by Government Agencies - Bovine.....	87
V.2.3:	Union-wise AI Performed by Cooperatives - Bovine.....	88
V.2.4:	District-wise AI Performed By Pranibandhus - Bovine	89
V.3.	Service Delivery System - Animal Health	
V.3.1:	District-wise Vaccination Performed for Foot-and-Mouth Disease	90
V.3.2:	District-wise Vaccination Preformed for Haemorrhagic Septicaemia	91
V.3.3:	District-wise Vaccination Preformed for Black Quarter	92
V.3.4:	District-wise Cases Treated.....	93
VI.	FEED RESOURCES	
VI.1.	Feed Resources - Availability vs. Requirement	
VI.1.1:	Area under Fodder Crops and Gross Sown Area	96
VI.1.2:	District-wise Dry Matter (DM) Availability, Requirement and Balance	97
VI.1.3:	Availability, Requirement and Surplus/Deficit of Dry Matter	99
VII.	AGRICULTURE	
VII.1.	Agro-climatic Zones	
VII.1.1:	West Bengal's Agro-climatic Zones	102
VII.1.2:	Details of Agro-climatic Zones	103
VII.2.	Land Use Pattern	
VII.2.1:	District-wise Land Use Pattern	105
VII.3.	Area and Production	
VII.3.1:	District-wise Area and Production - Cereals	106
VII.3.2:	District-wise Area and Production - Pulses.....	107
VII.3.3:	District-wise Area and Production - Food Grains	109
VII.3.4:	District-wise Area and Production - Oilseeds	110
VII.4.	Land Holding and Water Resources	
VII.4.1:	Operational Holdings in West Bengal	111
VII.4.2:	Net Irrigated Area under Different Sources of Irrigation	111
VII.4.3:	Major River Basins of West Bengal	113
VII.5.	Rainfall	
VII.5.1:	District- wise Average Annual Rainfall	114
VII.5.2:	Distribution of Blocks according to ground water status	116
VIII.	POLICIES AND SCHEMES FOR DAIRY DEVELOPMENT IN WEST BENGAL	117
GLOSSARY	125	

PART I : GENERAL STATISTICS

West Bengal is the thirteenth largest state in terms of area but fourth largest in terms of population in India. Though the state's population has grown at a slower pace (14 per cent) than the country (18 per cent) as a whole during the last decade, yet West Bengal stands amongst the most densely populated states in the country. This imposes severe burdens on infrastructure and land availability. The two districts adjoining Kolkata - Howrah and North 24 Parganas, have a high population density of 3,306 & 2,445 persons per sq. km., respectively.

Urban population is growing at a faster rate than rural population; the rate of urbanization being highest in the districts of Malda, South 24 Parganas and Murshidabad. The number of towns (municipal and non-municipal) has gone up from 376 during the year 2001 to 913 during 2011. Meanwhile, the number of villages has come down marginally from 37,945 in 2001 to 37,478 in 2011.

West Bengal is one of the largest economy in the country and contributed about 6.75 per cent of country's GDP in 2013-14 at current price. Agriculture and allied sector contributed 21.7 per cent to the GDP of the state.

Education is a crucial indicator to measure the progress of any society. West Bengal has witnessed a phenomenal change in its literacy profile over the last couple of decades.

PART II : LIVESTOCK CENSUS

As per the 19th Livestock Census 2012, West Bengal had a total bovine population of 17.1 million, down by 14 per cent than previous census of 2007. With a share of 80 per cent of total bovine, Indigenous cattle are predominant in the State followed by crossbred cattle at 17 per cent.

About one-third of in-milk indigenous cattle are found in the districts of Paschim Medinipur, Bankura and Bardhaman. About half of the total in-milk crossbred population are concentrated in four districts namely Paschim Medinipur, Murshidabad, Nadia and Bardhaman districts.

PART III : CATTLE AND BUFFALO BREEDS

The cattle population in the state is mainly dominated by non-descript animals. Only one native breed, "Siri" cattle exists in Darjeeling district. The total population for the graded "Siri" cattle was 5,479 during 2012 as per the Breed Survey 2013 of the Government of India.

Though Gir and Sahiwal are not the native breeds of West Bengal, but through the implementation of the new Breeding Policy during March 2007, are only used for upgradation of non-descript cattle in the state. The Breed Survey also substantiates that the state has the second highest population of Gir and Sahiwal, the highest being Gujarat for Gir and Uttar Pradesh for Sahiwal.

III.1. Distribution of Native Breeds in West Bengal

III.2. Performance of Major Breeds

TABLE III.2.1: Performance of Native Cattle Breed

Parameters	Cattle
	Siri
Breed Population as on 2012	Pure - 300 Graded - 5,479
Colour	Animals are either black with white patches or brown with white patches. In some cases they are totally black or brown.
Average Adult Body Weight (Kg)	Male - 454 Female - 363
Lactation Yield (Kg)	426
Lactation Length (days)	229
Calving Interval (days)	420 - 540
Age at First Calving (days)	1,410 - 1,680
Average Milk Fat (%)	2.8 - 5.5

SOURCE: Animal Genetic Resources of India (AGRI-IS), National Bureau of Animal Genetic Resources, ICAR and Estimated Livestock Population Breed Wise, Based on Breed Survey 2013, Department of Animal Husbandry, Dairying and Fisheries, Ministry of Agriculture & Farmers Welfare, Govt. of India.

PART IV : MILK PRODUCTION

Dairying is an important and integral part of the rural economy of West Bengal. Milk production in the state was estimated at 13,804 TKgPD (5.04 Million MT) in 2015-16 which is about 3.2 per cent of total milk production of the country. Milk production in the state has grown at a CAGR of 2.42 per cent during the last 5 years. Paschim Medinipur is the highest milk producing district in the state followed by Bardhaman. It is evident that almost half of the total milk production of West Bengal is concentrated in six districts, namely, Paschim Medinipur, Bardhaman, Murshidabad, Bankura, Nadia and Hooghly.

Out of the total annual milk production of about 5.04 million tonnes in West Bengal during 2015-16, about 35 per cent is retained by the milk producers for home consumption.

IV.1. Production Performance: Milk Production

**TABLE IV.1.1: Year-wise In-milk Bovine Population,
Milk Yield and Milk Production**

Year	In-milk Bovine ('000)	Milk Yield (kg per day)	Bovine Milk Production ('000 MT)
2002-03	3,769	2.532	3,483
2003-04	3,848	2.541	3,569
2004-05	3,940	2.551	3,669
2005-06	4,029	2.564	3,771
2006-07	3,949	2.689	3,876
2007-08	3,976	2.742	3,979
2008-09	4,005	2.781	4,065
2009-10	4,132	2.762	4,166
2010-11	4,257	2.787	4,331
2011-12	4,396	2.820	4,525
2012-13	4,547	2.837	4,709
2013-14	4,200	3.102	4,755
2014-15	4,291	3.071	4,810
2015-16	3,569	3.768	4,909

PART V : VETERINARY INFRASTRUCTURE AND SERVICE DELIVERY SYSTEM

The state has a well-established network of veterinary infrastructure, constituting various institutions viz., 12 District Veterinary Hospitals, 2,652 Animal Development Aid Centers (ADAC), 271 Additional Block Animal Health Centers (ABAHC), 339 Block Animal Health Centers (BAHC) and 92 State Animal Health Centers (SAHC) for providing extensive 'Health Care' facilities up to Gram Panchayat level through frequently organized Health Camps, Awareness Camps, Vaccination & Treatment Camps, Fertility Management Camps etc.

For bringing more number of breedable bovine under artificial insemination coverage, Pranibandhus, self-employed Artificial Insemination Workers have been engaged at each Gram Panchayat level keeping in view the economic viability and self-sustainability.

Moreover, the state has 3 Frozen Semen Stations at Haringhata, Salboni and Beldanga which are classified as 'A' category by the Central Monitoring Unit (CMU) of the Government of India, 3 Bull Mother Farms located at Haringhata, Kalyani and Salboni as well as 2 Frozen Embryo Transfer Laboratories at Salboni and Haringhata.

PART VI : FEED RESOURCES

West Bengal is a fodder deficient state. It is partly due to non-availability of fodder land which is below all India average and lack of adequate pasture and grazing land. Most of the feed comes from agricultural residues.

While paddy straw constitutes 94 per cent of the total agricultural residue, it is also used for fuel, thatching and paper manufacturing. In order to augment nutritional value, the government is boosting addition of urea to straw and cellulosic waste.

The state is implementing Centrally Sponsored Fodder and Feed Development Scheme and a "Regional Station for Forage Production and Demonstration" is operational at Nadia. Additionally, farmers are also provided fodder mini-kits with central funding.

PART VII : AGRICULTURE

West Bengal is fortunate to have adequate natural resources - rich alluvial soil, sufficient rainfall and ample supply of agricultural workforce helping the state to achieve sufficiency in food production. With 6 agro-climatic zones coupled with a variety of soil and climatic conditions, West Bengal ensures a varied crop basket.

Agriculture is the major occupation in the state and is characterized by a predominance of small and marginal farmers. The principal crops of West Bengal are Rice, Jute and Potato. The state's share in the total rice production of the country was 15.3 per cent and that of total foodgrain was about 7 per cent during 2014-15. Almost 77 per cent of the country's environment friendly golden fibre, i.e., jute is produced by the state. The time series data corroborates that the area under potato cultivation as well as the yield rate has experienced a substantial increase over the years between 1990-91 and 2014-15. Potato production in the state was almost 29 per cent of that in the country. Besides lying on Gangetic plain, 59 per cent of net cropped area in the state is irrigated.

Tea is important cash crop. High quality tea is also produced commercially in northern districts of the state – particularly in Darjeeling, famous the world over for its acclaimed flavorful teas.

It is worthwhile to note that on account of recharging of groundwater sources by harvesting the rain, there are no saline or over-exploited blocks in the state.

VII.1. Agro-climatic Zones

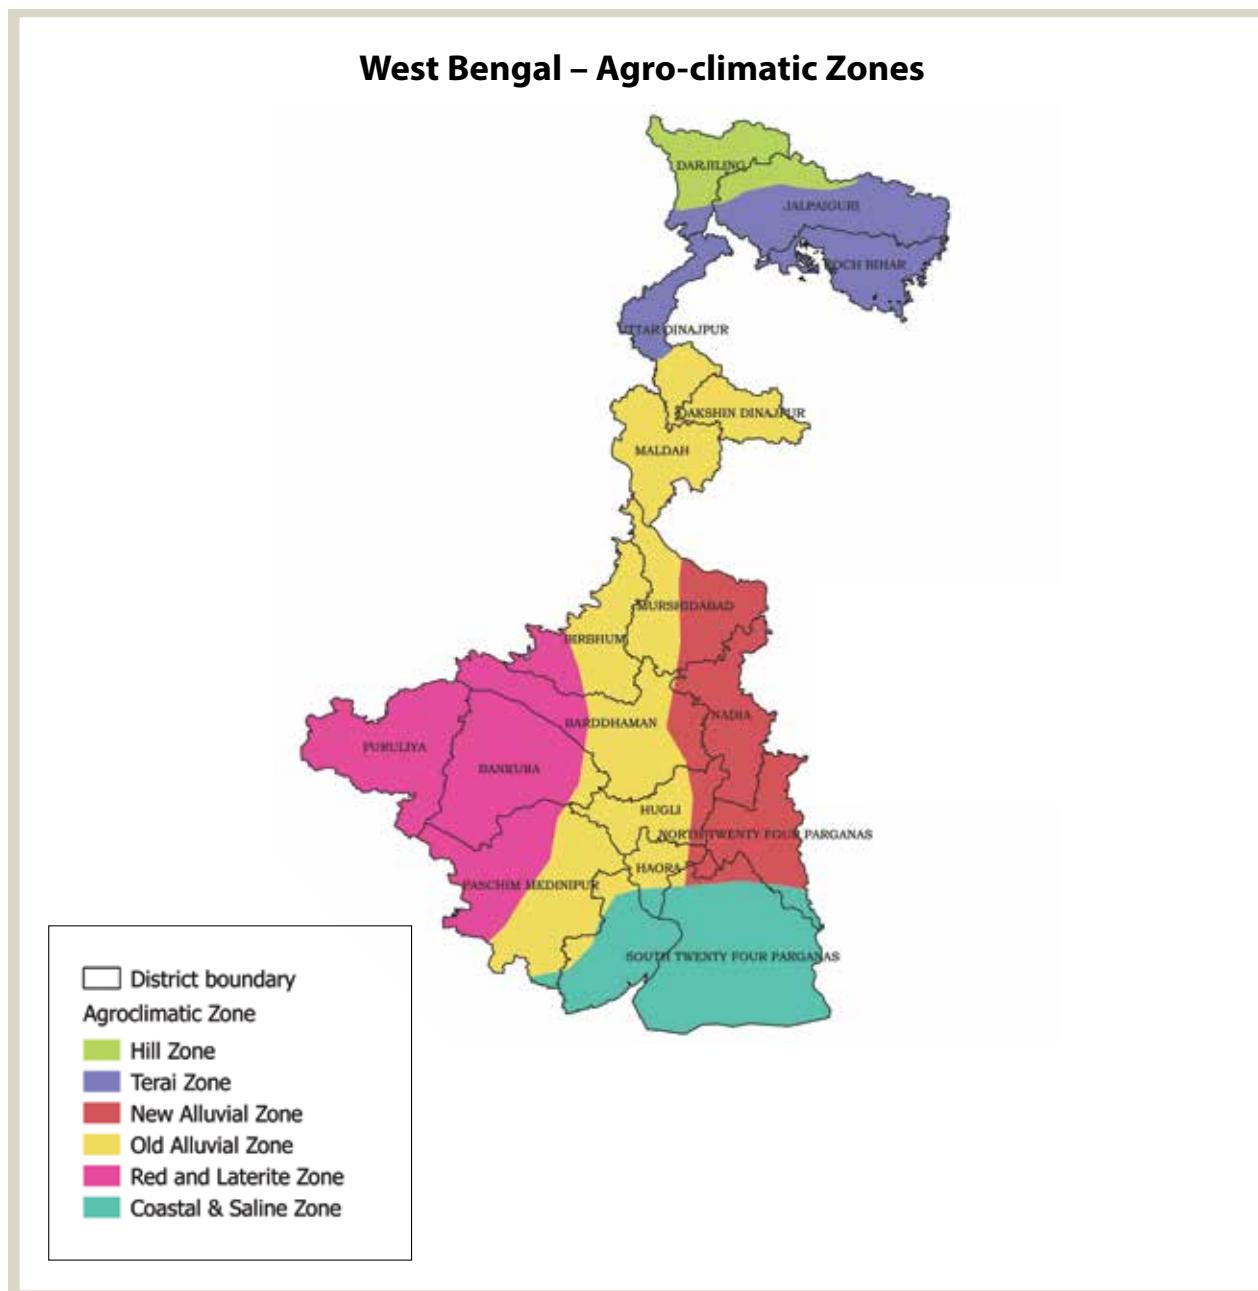

TABLE VII.1.1: West Bengal's Agro-climatic Zones

Northern Hill Zone	Teesta-Tarai Alluvial Zone	Gangetic Alluvial Zone

PART VIII : POLICIES AND SCHEMES FOR DAIRY DEVELOPMENT IN WEST BENGAL

In West Bengal, the Animal Resources Development Department is responsible for the formulation and implementation of Livestock and Poultry policies and programmes of the state. The following participatory branches including a university under this department are looking after the successful implementation of all the projects and schemes of the Department:

1. **Directorate of Animal Resources & Animal Health (DAR&AH):** is playing pivotal role for the control of animal diseases, scientific management and upgradation of genetic resources of livestock and poultry birds, increase in availability of nutritious feed and fodder, extension of activities on animal husbandry practices and also enhancement of production and profitability of livestock enterprises.

2. **Directorate of Dairy Development:** It is engaged in the processing of raw milk to produce pasteurised and homogenised market milk and various milk products, which in turn, are sold through its own network.
3. **Paschim Banga Go-Sampad Bikash Sanstha (PBGSBS):** It is registered society created to act as catalyst for qualitative, quantitative and genetic improvement of bovine population in this State.
4. **West Bengal University of Animal and Fishery Sciences (WBUAFS):** It imparts quality education, undertakes basic and need-based research and disseminates proven technologies to the rural masses.
5. **West Bengal Cooperative Milk Producers' Federation Ltd. (WBCMPF):** The WBCMPFL was registered in the year 1983 in order to eliminate middlemen and organise institutions to be owned and managed by the milk producers themselves. The basic objective was to provide assured and remunerative market for the milk produced by the farmer members.
6. **West Bengal Dairy & Poultry Development Corporation Limited (DAIRPOUL):** It is a government enterprise created in 1969 to supply high quality compounded feed for livestock under "Epic" brand name.
7. **West Bengal Livestock Development Board:** It focuses on meat and meat product marketing.
8. **Mother Dairy:** It oversees milk processing and supply to Greater Kolkata and other areas.
9. **West Bengal Veterinary Council:** The council is sincerely discharging the statutory functions like regulation of veterinary practice, Registration & Renewal of Veterinary Practitioners, monitoring the professional conduct, etiquette and code of ethics of registered veterinarians and organization of workshops and seminars to promote professional knowledge.
10. **The Calcutta Society for the Prevention of Cruelty to Animals (CSPCA):** The CSPCA, a charitable organization formed in the year 1861 with an objective to give relief to the helpless animals, especially the stray dogs. The society provides treatment and health care to the animals free of cost. It is a non-profitable organization surviving purely on Government aid and donations.

The main programmes and schemes for dairy development in West Bengal can be classified into two categories viz.

- I. Central Schemes;
- II. State Schemes;

ANIMAL HUSBANDRY & DAIRY DEVELOPMENT

I. CENTRAL SCHEMES FOR ANIMAL HUSBANDRY DEVELOPMENT (BUDGET HEAD 2403 – AH)

1	National Programme for Bovine Breeding (NPBB)	<p>NPBB sponsored by Government of India is implemented in West Bengal through BGSBSP. The Sanstha has more than 3,000 Pranibandhu working at Gram Panchayat level for delivery of breeding inputs at the farmer's doorstep. These workers perform Artificial Insemination (AI), vaccination of animals and provide primary health care. Funds are also used for improvement in quality of bulls used for natural service and artificial insemination, imposing strict quality control of services and inputs, consolidation and initiation of programme for development and conservation of recognized indigenous breed so as to improve the genetic makeup as well as their availability.</p> <p>The chief objective of the Program is to arrange quality AI services at Farmers' door step and to bring all breedable females under organized breeding through AI or Natural service using germplasm of High Genetic Merit. It also aims to conserve, develop and proliferate selected Indigenous Bovine breed of High Socio economic importance.</p>
2	Rashtriya Krishi Vikas Yojana (RKVY)	<p>During the year 2016-17, the total outlay under RKVY for the state was to the tune of ₹ 62.24 crore to ensure a comprehensive development in agriculture and allied sectors. The ARD Department has implemented the following projects/ schemes under RKVY during the year 2016-17.</p> <ul style="list-style-type: none"> i. Extension of Animal Health Care Services in remote areas of West Bengal through the Mobile Veterinary Clinic (MVC); ii. Livelihood improvement of poor and tribal people through livestock based enterprises in selected villages of Jhargram Block ; iii. Prani-Shakti – Tablet PC & Web-enabled Animal Resources Extension & Information Management System; iv. Purchase of new Freeze Drier Machine at IAH&VB, Belgachia; v. Setting up of the Mineral Mixture Plant by WBCMPFL; vi. Optimization of productive efficiency through organization of Animal Health Camps (Parasitic Control & Fertility Improvement) vii. Modernization and Strengthening of Bull Mother Farm, Haringhata; viii. Certificate Course on Artificial Insemination (Pranisebee); ix. Establishment of FSBS at Pedong, Darjeeling.
3	Rural Infrastructure Development Fund (RIDF)	<p>Under RIDF, the following activities were undertaken by the State during 2016-17:</p> <ul style="list-style-type: none"> i) Strengthening and modernising treatment & diagnostic facilities at Block Level ii) Modernization of Haringhata Dairy iii) Upgradation of Infrastructure Facilities of Sperm Station at Beldanga, Murshidabad iv) Establishment of Murrah Buffalo Bull Mother Farm at Turkidanga, Bishnupur, Bankura
4	Professional Efficiency Development	<p>Through this Programme, the West Bengal Veterinary Council has trained 320 (three hundred twenty) nos. of Veterinarians and provided advance knowledge in the field of Veterinary & Animal Sciences during 2016-17. The Central Government provides 50 per cent assistance for setting up and functioning of Veterinary Council.</p>

5	National Dairy Plan-I	Under NDP-I, the mandate is to strengthen the Frozen Semen Stations located at Haringhata & Salboni and increase its production by two fold. Moreover, under Bull Production Programme through imported Embryo the Project, production of pure Jersey & Holstein bulls were aimed through advanced Embryo Transfer technology.
6	Assistance to States for Control of Animal Diseases (ASCAD)	This scheme aims to control livestock diseases through conducting mass vaccination and diagnosis of diseases in the newly established DDLs to reduce the morbidity & mortality of animals. It is implemented in the state from the year 2004-05 with 75 per cent central share and 25 per cent state share
7	Establishment and Strengthening of Veterinary Hospital and Dispensaries (ESVHD)"	The West Bengal, DAIRPOUL is entrusted the responsibility of implementing of Centrally Sponsored ESVHD scheme. The corporation has renovated as well as constructed Veterinary Hospitals and Dispensaries.
8	National Animal Disease Reporting System (NADRS)	DAR&AH is implementing NADRS in West Bengal. NADRS involves computerized linking 333 block, District and the State headquarters in the State with the central project monitoring unit New Delhi to record and monitor livestock disease situation.
10	National Livestock Mission (NLM)	Under NLM, four different components were covered during 2016-17 with a total outlay of ₹ 11 85.84 lakh
	a. Risk Management and Insurance of Milch Animals	The scheme, being implemented by PGSBS, aims towards risk Management and Insurance of 143,000 nos. of Milch Animals. With 16 per cent of premium payment, the beneficiary can insure his dairy animal and Centre & State Governments bear 40 per cent and 44 per cent of premium cost respectively.
	b. Modernization and Development of Breeding Infrastructure	It proposes development of Kotulpur Fodder Farm into a Model State-of-the-Art Farm. This is being implemented by the Directorate of AR&AH, GoWB on funding pattern of 60 per cent Central & 40 per cent State share.
	c. Fodder Seed Production, Procurement & Distribution	The objective is Fodder Seed Production, Procurement & Distribution. Target is to supply of 14,000 Minikit. This is being implemented by the Directorate of AR&AH, GoWB (Funding pattern of 60:40 as CS:SS)
12	Integrated Sample Survey (ISS)	As per the guidelines of GoI, the Department of ARD regularly conduct field survey work to generate season-wise and annual estimates (district-wise & for the state) of production of milk and other other livestock products and by-products. For this purpose, 50 per cent central assistance is provided to the State.
13	Livestock Census	In addition to ISS, the Department of ARD conducts Quinquennial Livestock Census every five years to capture total livestock population, male & female bovines, milch & in-milk population.

II. STATE SCHEMES FOR ANIMAL HUSBANDRY

1	Cattle & Buffalo Development	The Scheme aims to augment milk production in the State through the following: i. Breed up-gradation / crossbreeding of low milk producing local Cattle & Buffalo through artificial insemination ii. Frozen Semen Straws production of elite bulls of Gir, Sahiwal, Jersey & Murrah (buffalo) breed iii. Infrastructure development, which are not included under NDP & NPBB iv. Maintenance and updation of e-PBGSBS Management System, a bovine Breeding management System.
---	---	--

2	Establishment of Fodder Development Plot	This program aims to develop Fodder Demonstration Plot in 10 (ten) cottahs of land in farmers' field to encourage livestock farmers in production of Green Fodder
3	Enrichment of dry fodder	It aims to enrich the straw/ cellulosic waste by addition of urea for enhancing the nutritional value
4	Fodder Seed production through JV initiative	It aims to enhance the production of Certified Fodder Seeds in Government Fodder Farms, Kishan Vikas Kendra & Agriculture Universities

III. CENTRAL SCHEMES FOR DAIRY DEVELOPMENT

1	National Dairy Plan-I	In order to increase productivity of milch animals and to provide a greater access to the organised milk-processing sector to rural milk producers, NDP-I is being implemented in West Bengal. The scheme provides 100 per cent grant-in-aid for animal nutrition & breeding activities, 25 per cent grant-in-aid for capital expenditure on new semen station and 50 per cent grant on cost of capital items for village milk procurement system.
---	------------------------------	--

IV. STATE SCHEMES FOR DAIRY DEVELOPMENT

1	Development of Milk Co-operatives	A) Developments of Milk Co-operative Societies by extending special financial assistance to meet up milk production cost to the dairy cooperative farmers through the Dist. Milk Unions. B) Improvement of the quality of milk and enhancement of milk yield, providing of Milk Scanner and Special Feed Additives to the members of the Milk Coop Societies to maintain quality milk supply chain and to save the milk farmers from the clutches of unscrupulous traders and to deliver good quality processed milk to the urban consumers.
2	Creation of Capital Assets (Infrastructure Development)	Setting up of infrastructure for Value Added Products, expansion of basic Civil Infrastructure for installing Dairy Machineries. Keeping these factors in view, extension of Civil Infrastructure in the Dairy Plants of the Milk Unions and installation of Dairy Equipment.
3	Women Empowerment in Milk Cooperatives	Assistance towards construction of Society Building, Furniture, AMCU(s), Milk Cans for Women Dairy Cooperative Societies and Milk Pails, Cattle Insurance, Chaff Cutter, Cattle Shed for Individual Women Farmers. Involvement of rural women in restructuring of their socio-economic status and promoting of rural women empowerment as a Govt. policy.
4	Incentive for Cattle Feed Subsidy to the Milk Cooperative Farmers	Incentive for providing balanced Cattle Feed to the Milk Cooperative farmers for their cattle to maintain the health and enhancement of milk yield.
5	Fodder Development Programme	A) Azolla Cultivation among the Marginal Farmers having almost no land for Fodder cultivation opted for Production Unit as an alternative source of Green Fodder. Production of raw milk after Azolla feeding increases and more milk price earned which can be considered to be profitable to the farmers as Low Cost Technology with trouble free cultivation. B) Fodder Seed - Due to high price rise of concentrates, farmers are now finding difficulty in maintaining cattle. Encouraging farmers in taking Green Fodder for better nutrition of cattle and thus enhancement of milk yield, steady conception and good growth by providing Green Fodder as Feed would help to minimize the cost of Milk production and execution of the same among the Dairy Cooperative Farmers through the Dist. Milk Union

GLOSSARY

AI	: Artificial Insemination is the process of deliberate introduction of sperm into the female reproductive tract for impregnation.
Bovine	: Large ruminants like cattle, buffaloes, yak and mithun.
Breedable	: Female animals that have attained the age of puberty.
Breeding Tract	: Area where breeds/group of animals are found.
Calving Interval	: Period between two calvings.
Castration	: Technique by which males are made sterile for use in draught operations.
Crossbred	: Animal produced by hybridization of two different breeds.
DM	: Dry biomass available from feed and fodder.
Dry Animal	: Adult animals calved at least once but not in-milk at present.
Food Grains	: Cereals and pulses.
GSDP	: Basic measure of a State's overall economic performance. It represents the market value of all final goods and services made within the borders of a State in a year.
Indigenous Animals	: Animals native to a particular area.
In-milk Animals	: Animals which are lactating.
Irrigation Intensity	: (Gross irrigated area/Net irrigated area) * 100.
Lactation Length	: Number of days the animal secretes milk.
Lactation Yield	: Total milk production over period of 300/305 days.
Literacy Rate	: Percentage of literates in the age group above six years.
Livestock	: Domesticated mammals.
Male to Female Ratio	: Number of males to females.
Milch Animals	: Sum of in-milk and dry animals.
Milk Utilisation Pattern	: Quantities of milk retained for home consumption in liquid form, retained for product conversion and milk sold by the milk producers.
Marginal Holdings	: Farmers possessing less than one hectare of operational holding.
Small Holdings	: Greater than one hectare and less than two hectare of operational holding.
Semi Medium	: Greater than two and less than four hectare of operational holding.
Medium Holdings	: Are more than four and less than ten hectare of operational holding.
Large Holdings	: Are those larger than ten hectare of operational holding.
Population Density	: Number of human beings/animals per square km of geographical area.
Poultry	: All categories of chicken, guinea fowls, turkey, ducks and quails.
Sex Ratio	: Number of females to 1,000 males in a population.
Small Ruminants	: Sum of sheep and goats.
Urbanisation	: Per cent of urban population to total population.
Wet to Dry Ratio	: Number of in-milk to dry animals.
